Employability Potential of B.A. Programme

The job market today, is dynamic and challenging place for young people graduating from our educational institutions. While the number of job seekers is on rise, so are the employment opportunities available to them. However, many employers say that they are unable to find suitable candidates for the jobs they have. Of the candidates who appear for interviews every year, only about thirty percent are selected for the employment. This does not mean that students are poorly equipped with knowledge. On the contrary, many are adequately qualified in this area. The problem is that they lack proficiency in English and the soft skills necessary for professionals today. The need to equip graduating students with skills essential for work place has become an urgent concern. Keeping this in mind the board of studies in English designed the curriculum of English Compulsory, English Literature, Supplementary English, Functional English, Ability Enhancement Course in Communication Skills in English and General Interest Course in Soft Skills.

All living beings communicate. To communicate is a sign of life. In fact, communication is essential to survival, to co-existence and is a natural instinct. In order to improve communication skills of students many topics on communication have been incorporated in the curriculum.

After completion of this course students can make career in creative writing, translation, journalism, content writing and tourism industry. Making career through competitive examinations is a dream of many arts graduates. The present curriculum is immensely helpful for students, who desire to prepare for competitive examinations.
